You can create different demographic patterns for different survey batches.

Select Survey Demographics.

(1) Give a name to Demographic pattern you are about to create.

(1) Click on the checkboxes to select the demographics that you want to include in the survey. This will aid in doing demographic-wise custom analysis.

(2) Confirm | Update 'Data Type' by selecting the appropriate option from the drop down.

(3) Click 'Update' to confirm the final list of demographics to be included in the survey.

(4)

- [x] Employee Code — Numeric
- [x] Employee Full Name — ALPHA
- [x] Employee Email Id. — ALPHANUMERIC
- [ ] Employee Cellphone No. — NUMERIC

Note: Select this if you want the survey invites & login details to be sent by sms

- [ ] ~~Function~~ ~~Department~~ Business Unit : ALPHA
- [x] Function | Department : ALPHA
- [ ] Region | Location : ALPHA.
- [x] Date of Joining — DATE
- [ ] Date of Birth
- [ ] Gender — DATE

+ Add more

(A) New page with selected demographics

Select demographics + Data drop downs — Default

Update

(B) View Final Demographic Select (Popup)

(3) Numeric

(3) AN

(3) Date

9 — 16 — 7

(3) Alpha +

* Contact EC link to website or Fee page (where fee details are given.)

Demographic

Pattern Name → _____

(A)

Employee Code Numeric ~~Alphanu~~ 1, Drop down. → I select Alphanumeric

Emp Full Name : Alpha.

Emp Id : Alphanumeric

Function : Alpha.

Region : Alpha

Gender : Alpha Male, Female

Date of Joining : Date

Update

(B)

View Selected Demographic.

Demographic (not Column Name)	Data Type	Demographic Attribute*
	: ~~Al~~ Alphanumeric	
E code	: Alpha	
E F N	: Alphanumeric	
E ID	: Alpha.	
F n	: Alpha	Male, Female
Gender	: Date	
DOJ		

* Demographic attributes will come as drop down options in Data Upload File.

10 - 6 - 4
10 4

Set ppl..

(1) Click 'choose ~~A~~.
(2) Refer to the Data Upload File Instructions to see the data ~~formats~~ type & formats for each demography.
(3) Check ~~accura~~ data for accuracy & completeness before uploading the data. Incorrect, duplicate or incomplete entries will not get uploaded.

Upload Employee Data Excel File

(4) Click 'Choose File', select the updated employee database file and then click UPLOAD to upload the file"

Choose File | No file selected

UPLOAD

~~Correct incorr.~~ In case of data upload failure, correct "incorrect" entries & re-upload the ~~entire~~ data all employee for the batch.

SEND SURVEY INVITE

(1) All entries are uploaded successfully
(2) None of the entries are uploaded successfully
(3) Partially success of entries
(4) Duplicate entries → confirm in same batch
(5) Duplicate entries in different batches.

↳ Data type → format | missing data | Duplicate #s/ids/ Duplicate = & code check.

Data Upload Status
~~Successful data upload~~
Entries Uploaded Successfully : ____
Entries upload failed : ____

See below for reasons of ~~failed~~ data upload failures.

Data Upload Failures.

SN	~~Email Id~~ Emp Name	~~Emp Name~~ Email Id.	Contact No	Fa	Rest of Selected Attributes	Status.

→ Enter Valid Number should be replaced by 'Enter Correct Data' → Add instruction for all failures.

→ Note: Correct the data in the Employee Data Upload file & re-upload the file. ~~The system~~ ~~will pick up only the corrected data~~ ~~Retain the correct data~~ For. eg if your initial upload has 10 employee data out of which 4 employees data does not get uploaded because of data entry failure. Correct the data of the '4' employees & re-upload the file with all 10 employees data

03.1.2

SEND SURVEY INVITE

Sr.	Emp Code	Emp Name	Email Id	Contact No	All Attributes ...	Status *	Reminder Mail sent on.
						~~Survey invite sent~~ ~~Del~~. Successful delivery	(If invite is sent successfully)
						~~Failed to send survey invite~~ ~~Failed~~ Delivery failed	(If invite is not sent successfully).
						~~Are can resend~~	

* Check data when there is a failure to deliver the survey invite

→ ~~Check~~ data.
